

# The Local Choice Key Advantage

## **Prescription Drug List by Tier**

Anthem Blue Cross Blue Shield prescription drug benefits include medications available on the Key Advantage Drug List. Our prescription drug benefits can offer potential savings when your physician prescribes medications on the drug list.

# The Local Choice Key Advantage Drug List

## Key for drug list

**TIER 1** – Lower copayment – Drugs that offer the greatest value compared to others that treat the same conditions. Some of these are generic versions of brand-name drugs.

**TIER 2** – Medium copayment – Brand-name drugs that are generally more affordable. Drugs may also be on this tier because they are “preferred” among other drugs that treat the same conditions. This may be based on how well they work, if they have less side effects, if they’re more affordable, etc.

**TIER 3** – Higher copayment – These are higher cost brand-name drugs. Some Tier 3 drugs may have generic versions in Tier 1 and may cost more than the generic versions on lower tiers.

**TIER 4** – Many drugs on this tier are “specialty” drugs used to treat complex, chronic conditions and may require special handling and/or management.

Your prescription drug benefit includes coverage for medicines that you'll find on the Drug List. You can often find more savings when your doctor prescribes medicine that is on our drug list. Here are some commonly asked questions and answers about how the drug list works with your prescription drug plan.

### Q. What is a Drug List?

A. The Local Choice Key Advantage Drug List is a list of U.S. Food and Drug Administration (FDA)-approved brand-name and generic drugs that have been reviewed and recommended for your Plan.

Because the drugs on our list are reviewed from time to time, it's a good idea to check the list to find out if any drugs have been added, removed, or changed tiers. You can do this by going to [anthem.com/tlc](http://anthem.com/tlc).

### Q. What are Tiers?

A. Drugs on the Key Advantage Drug List are grouped into tiers. There are several factors that are used to determine under which tier a drug will be placed. This can include (but it's not limited to):

- Cost of the drug
- Cost of the drug in comparison to other drugs used for the same type of treatment
- Availability of over-the-counter options
- Other clinical and cost factors

### Q. What is a brand-name drug?

A. These are drugs that are developed by a company who holds the rights to sell them. When the rights expire, other drug companies can make their own version of the drugs (see generic drugs below). You may be more familiar with brand-name drugs through advertising or because you know people who take them.

### Q. What is a generic drug?

A. Generics are simply copies of brand-name drugs. Brand-name and generic drugs have the same active ingredients, strength and dose. And the FDA requires that generic drugs meet the same high standards for purity, quality, safety and strength. With generics, you get the same quality for less money.

### Q. What if my doctor or I choose a brand-name drug when a generic version is available?

A. In most cases, you would be responsible for the brand name copay plus an additional cost difference between the brand-name medication and the generic version. Members who take drugs in the Immunosuppressant, Anticonvulsant and Psychotherapeutic categories will pay no more than \$100 per 34-day supply at retail and \$200 per 90-day supply via mail service.

### Q. How are contraceptives now covered under the Affordable Care Act (ACA)?

A. Effective July 1, 2013, all FDA approved generic oral contraceptives including the Orth-Evra patch and Nuvaring will be covered at 100% with no member copayment.

### Q. What if my medication is not listed?

A. This drug list contains the most commonly prescribed drugs and their associated tier. If your drug is not listed, please call Anthem Member Services at 800-552-2682 or go to [anthem.com/tlc](http://anthem.com/tlc) for additional information.

## KEY

† = A generic equivalent of this drug recently became available or will be available soon. After the generic drug becomes available and notification requirements are met, this brand-name drug will become Tier 3 or may no longer be covered by your prescription drug plan.

~ = Preferred step therapy drug: this drug has been chosen to be tried first when treating some conditions.

**PA** = PRIOR AUTHORIZATION REQUIRED. Prior authorization is the process of obtaining approval of benefits before certain prescriptions may be filled. Your doctor may request Prior Authorization by calling 866-310-3666 (Doctors Only).

**QL** = QUANTITY LIMITS. Certain prescription drugs have specific quantity limits per prescription or per month.

**ST** = STEP THERAPY REQUIRED. You may need to use one medication before benefits for the use of another medication can be authorized. Please note: Foradil and Serevent are safety edits that prevent duplications of therapy.

**ST<sup>∞</sup>** = STEP THERAPY MAY BE REQUIRED. You may need to use one medication before benefits for the use of another medication can be authorized. This step therapy may not be required if there is a history of a paid claim for this medication in the prior 6 months.

**DO** = DOSE OPTIMIZATION REQUIRED. Normally involves the conversion from twice-daily dosing to a once-daily dosing schedule.

\* = Diabetic blood glucose testing supplies and glucometers are subject to 20% coinsurance.

**For more information regarding prior authorization or quantity limits, contact Anthem Member Services at 800-552-2682.**

If you have additional questions about your prescription benefits, please call Anthem Member Services at 800-552-2682.

Speech and hearing impaired (TDD/TTY users) should call 800-221-6915, Monday – Friday, 8:30 a.m. – 5:00 p.m. ET.

For the most current version of this prescription drug list, please visit [anthem.com/tlc](http://anthem.com/tlc).

Bring a copy of this drug list to your next doctor's visit to assist in selecting the lowest cost medications.

This brochure is only one piece of your entire enrollment package. Exclusions and limitations can be found in your Local Choice Key Advantage Member Handbook.

The drug listing in this booklet was current at the time of printing, but is subject to change.
